

AH 19DSDA2F

DynamicSignatureDisplay

Aluminium retractable double sided motorised monitor for digital labelling applications

Features

- 19" half widescreen motorised monitor
- Double side
- Internal embedded computer
- · Software provided
- Interactive Setup Display

GENERAL

DynamicSignatureDisplay monitors have been designed for installation into tables, desks and counters.

The product consists in a vertically motorized retractable single or double side stretched screen and a Linux based software which allows an easy display of a picture and name or any digital content in full colour.

In the double screen version, the two screens are placed back to back in a compact, anodised aluminium frame, allowing the display of different information on each of them. Thus, the side facing the audience will show the Maintenance free

- HDCP compliant
- Energy saving design
- Serial control & Remote diagnose

picture and name of the conference participant, while the other side can display necessary data for the viewer.

The screens are only visible when needed, and they keep a minimum height, disappearing within the table desk through the push of a button or remotely controlled through RS-485. They provide an extremely fast and silent retractable system, a safety system and require no maintenance. The solution comprises a Linux based software which allows an easy display of picture and text, ideal for name tagging applications over a single CAT-5 cable per screen.

TECHNICAL SPECIFICATIONS

Display

Display	
Size	TFT Active Matrix. Double face monitor. Half widescreen 19" screens
Brightness	250 cd/m2
Contrast ratio	1000:1
Pixel	0.2835 (h) x 0.2835 (v) mm
Viewing angle	80°/80° (u/d) / 85°/85° (l/r)
Viewing area	408 (h) x 120 (v) mm
LED backlight lifespan	30.000 hrs
Response time	Tr 3.6 ms, Tf 1.4 ms
Temperature (operating/storage)	Operating 0°C - +40°C Storage -20°C - +60°C
Materials	·
Cabinet & cover plate	Solid aluminium monitor housing in natural anodized finishing and up-table cover plate in brushed stainless steel
Connectivity	
RJ45 CAT5	Network ethernet connection. Embeded LINUX integrated with special software for Signature Name, externally controlled by LINUX server
RJ45 CAT5 (with loop)	Addressable RS422 monitor control by AHnet protocol
GPI (SubD9)	Up/Down control

Control		
RJ45, RS-422 (I/O)

CONNECTIVITY PANEL

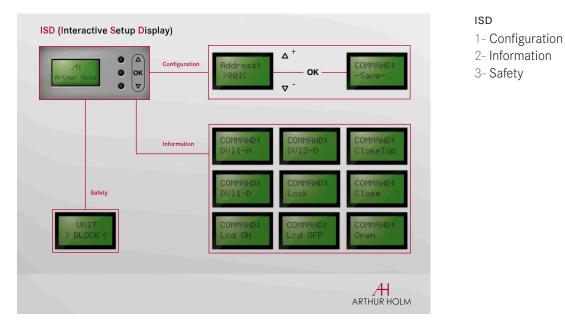

Connectivity

1- AHnet control interface

AH19DSDA2F

- 2- GPI control
- 3- Power input
- 4- Service screen 1
- 5- Network screen 1
- 6- Network screen 2
- 7- Service screen 2

INTERACTIVE SETUP DISPLAY

ARCHITECT'S SPECIFICATIONS

Dynamic Content Display system made up of double video player embedded in a dual side retractable monitor and software to control and configure the content to be displayed. Dual Linux based video player, with TCP/IP interface for control, configuration and content upload. Content management through software, which will allow setting the content to be displayed, database management to easily store, edit and recall user information as well as to assign content to displays. Standard fixed content layout for easy configuration.

Low voltage professional electrically retractable dual monitor. Special wide format monitor (3.4:1) to minimize the screen height. Double back to back mounted screens, signals from the video players shall be routed independently, so monitors can show different content. Aluminium screen housing, natural anodized finishing with square corners design. Passive cover plate in brushed stainless steel for enhanced reliability. Lifting movement with a single electrical engine for increased reliability. DVI-I and DVI-D connectors. HDCP compliant inputs. Compatible with AHnet open protocol over RS-422, allowing independent remote control of up to 30 units over a daisy-chain CAT-5 or CAT-6 line. Additional control by means of the buttons integrated on the cover plate that can be activated or deactivated by using the AHnet. Easy to read Interactive Set-Up Display (ISD) 1,6"LCD display for address setup and status monitoring. Safety system that detects obstructions, stopping the unit. External power supply with 4-Pin XLR4 connector. Bottom connectivity for easy access and removal of monitor without disconnecting the monitor. Monitor housing total depth is 591 mm, plus additional spacing for connectors. Adjustable mechanical parameters through AHnet or ISD for calibration and adjustment of mechanics. Diagnostic readout on ISD for increase service and support.
