

PVW 4012 Video conferencing furniture silver

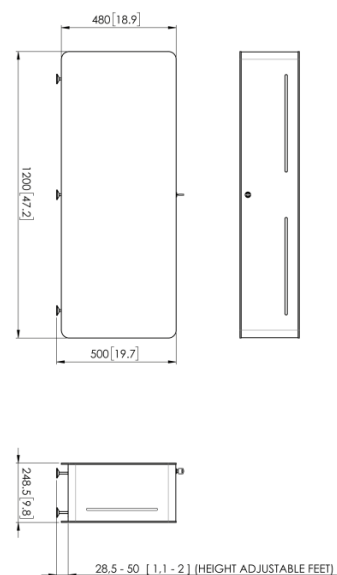

Article number (SKU) 7140124
Colour Silver

Key benefits

- Theft prevention
- Ample storage space for AV equipment
- Easy to install
- TÜV certified

The PVW 4012 is a cabinet designed for videoconferencing. The cabinet has to be combined with the Connect-it wall system. Use the Vogel's camera and loudspeaker holders (PVA 5050 / PVA 5070) and loudspeakers (PVA 42xx) to create a complete video conferencing solution.

The PVW 4012 is made of high quality materials. Thanks to the slim design, the furniture is ideal for use in small rooms. The cabinet can be locked to prevent unauthorized access to the products inside. It has two 19" rack spaces and includes 2 trays which are adjustable in height. A special compartment is created in the centre of the cabinet to place a power socket. Height adjustable feet make it possible to level the product. The product is available in silver and white.
